

## District Heating Decarbonization workshop in Bosnia and Herzegovina and Croatia

Having been awarded a tender by the Ministry of Foreign Affairs and Trade, our Association is organizing a workshop in Bosnia and Herzegovina and Croatia to transfer domestic experience and knowledge on the use of geothermal energy for district heating to EUSDR countries that have sufficient geothermal potential, heat markets and district heating services, but improvements fall short of potential.

The aims of the event are the following:

- to present the decades of technical and technological experience gained by various Hungarian companies in the design, construction and operation of geothermal district heating systems,
- describe the banking, market and grant funding opportunities that support the implementation of such projects,
- organising B2B meetings where interested Hungarian and Croatian/Bosnia-Herzegovinian companies can directly exchange experiences and build business contacts with a purpose of establishing future joint projects.

05 October, 2023 – Zagreb , Croatia

Venue: Institut Liszt – Mađarski kulturni centar Zagreb / Liszt Institute - Hungarian Cultural Centre Zagreb

**(Augusta Cesarca 10, Ban centar, Europski trg)**

There is no reserved parking on site for the event, all participants must arrange their own parking.

Program schedule:

Beginning	Ending	Event	Speaker
9:30	10:00	Arrival, registration, coffee	
10:00	10:20	Welcome	Ambassador, Kristina Celic Deputy State Secretary for Energy

			Edit Pergerné Nagy, MaTáSzSz
10:20	10:30	Demonstration of the purpose of the event	Annamária Nádor
10:30	11:00	Presentation on the country's energy and district heating strategy by the government official responsible for energy in the target country	Kristina Celic Deputy State Secretary for Energy
11:00	11:30	Geothermal heat utilization in Hungary: project preparation experiences with geological focus	István Garaguly, MS Energy Kft.
11:30	12:00	Geothermical DH supply in Szeged	László Kalmár, SZETÁV Kft.
12:00	13:00	Networking lunch	
13:00	13:30	Bank financing options for geothermal projects	Bank Association
13:30	14:00	Market financing opportunities for geothermal projects	Gábor Molnár, Mannvit
14:00	14:30	HEPA/WGBC/EU funding opportunities in the region	Annamária Nádor, Ministry of Foreign Affairs and Trade
14:30	15:00	The potential role of MaTáSzSz DH industry members in geothermal development	Zoltán Egyházi, Member of the District Heating Industry Division of MaTáSzSz
15:00	15:30	Coffee break	
15:30	17:00	B2B meetings (max. 10 minutes/participant)	
17:00	17:30	Final words and joint summary	

12 October 2023 – Tuzla, Bosnia and Herzegovina

Venue: **PC DRAMAR**, Branilaca BiH 11

Parking is available on site.

Program schedule:

<b>Beginning</b>	<b>Ending</b>	<b>Event</b>	<b>Speaker</b>
9:30	10:00	Arrival, registration, coffee
